Technical Skills

- **Languages:** Java (Core, Advanced), JavaScript.
- **Frameworks:** Spring Boot, Spring MVC, Hibernate, JPA , OAuth2.0.
- **Front-end:** HTML, CSS, Bootstrap , Tailwind.
- **Tools:** Maven, Git, GitHub , Docker, Bash.
- **Databases:** MySQL .
- **APIs:** RESTful APIs.

Professional Experience

Java Web Developer (E-Commerce) | Freelance | Dec 2023

- Developed fully integrated e-commerce websites using Spring Boot.
- Implemented authentication and role-based access control (**RBAC**). example - SuperAdmin & Admin.
- Created user-friendly admin dashboards for order and sales management.
- Used Thymeleaf and Bootstrap for responsive UI design.
- Integrated MySQL databases for product, order, and customer data.

Notable Projects

E-commerce Platform with Admin System - [GitHub]

- A scalable e-commerce solution featuring an admin dashboard, real-time analytics, and a secure checkout process.
- Tech Stack: Java, Spring Boot, Thymeleaf, MySQL, Bootstrap.

Portfolio - [GitHub][Visit Project]

- A personal portfolio showcasing projects, resume, social media links, blogs, and technical skills.
- Tech Stack: Thymeleaf, CSS, Spring Boot, Bootstrap.

Back Management System - [GitHub]

- A RESTful API for managing bank accounts, handling transactions..
- Tech Stack: Spring Boot, Spring Security, RESTful API, MySQL, Hibernate, Java.

Contact Management System - [GitHub]

- Created a robust contact management application using Spring Boot and Thymeleaf
- Implemented CRUD operations for managing contact information
- Tech Stack: Thymeleaf, CSS, Spring Boot, Bootstrap, MySQL, Spring Security, RBAC(roles based access).

Topics Covered

- **Core Java:** Java 8, OOPS, Collections, Multithreading, Exception Handling, Generics, Streams API, Lambda Expressions, Functional Interfaces, File I/O (NIO), Serialization, Annotations, Concurrency (Executors, Synchronization, Locks), JVM Memory Management (Garbage Collection), Java Memory Model, and Design Patterns (Singleton, Factory, Observer, etc.).
- **Spring Framework:** IoC, Dependency Injection, AOP, Spring Boot: Auto-configuration, Embedded Servers, Actuator
- **Spring Data JPA:** CRUD repositories, Custom queries, Spring Security: Authentication, Authorization, OAuth2
- **Spring Security:** Authentication, Authorization, OAuth2

Education

- **Bachelor of Science in Computer Science, Mumbai University (April 2020)**

Smt. Shushiladevi Deshmukh Vidyalyaya

- August 2017 - April 2020
- Graduated with **8.3 CGPA**

Professional Training

- Completed Full Stack Development Training at **J-spiders**, Thane. [OCT 2023 - OCT 2024]
- Completed advanced Spring Boot and OAuth2.0 Course (2023). [YOUTUBE -DURGESH]
